- Bag - 1 month
- Tub - 6 months

Handling Guidance Notes

Ultracrete Instant Road Repair is manufactured and delivered within as short a time as possible to ensure fresh easy to lay material is supplied. It should be noted that bags on pallets, particularly those at the bottom, can appear firm, applying light pressure to the edge of the bag will restore the material to its normal consistency

Please Note: All tests are carried out at 20°C in temperature-controlled laboratories. Where temperatures are variable cementitious product performance will vary. Cool temperatures retard, warm temperatures accelerate.
