

Emtek Ultracrete Post Fix Rapid Hardening Concrete 25kg Bag

EMTEK Highway Maintenance

PostFix is a rapid hardening concrete which only requires the addition of water. The materials rapid set capability significantly reduces the likelihood of damage that can occur when the post or sign is newly fixed.

Ideal for fixing of road signs, fence posts, minor installations, haunchings, street lighting columns, speed cameras and street furniture.

KEY FEATURES

- Sets in 15 minutes, reducing the need for shoring.
- Only requires one visit to complete installation of post/sign
- Contains a blend of special cements and 10mm graded aggregate
- Pre-blended, only requires water
- Easy to mix, contractor friendly units
- Economical, Durable

PERFORMANCE

Age	Temperature	Compressive Strength N/mm ²	Workability	Set Time
1 hour	20°C	2.5	5-10 minutes	15 minutes
1 Day	20°C	20.0	5-10 minutes	15 minutes
7 Days	20°C	31.0	5-10 minutes	15 minutes

Storage

Store in a dry place at temperatures between 5°- 35°C. Shelf life in correct conditions for sealed bags is 6 months. High temperatures and high humidity will lead to a reduced shelf life

Density	Yield	Colour
2.300 kg/m ³	12 litres (approximately)	Brownish Grey

Please Note: All tests are carried out at 20°C in temperature-controlled laboratories. Where temperatures are variable cementitious product performance will vary. Cool temperatures retard, warm temperatures accelerate.
