

NATIONWIDE TECHNICAL SUPPORT

We are a leading supplier of paving construction materials across Ireland. As part of our commitment to our clients we provide regular technical training and materials awareness sessions on the best mix, application and use of our high performance products.

Our materials support team work throughout Ulster, Leinster, Connaught and Munster, supporting contractors, designers, local authorities and specialist paving merchants, to help ensure the optimum use of the materials on what are often premium level, time critical projects.

BEDDING & PRIMING

Selecting the correct bedding concrete and primer is key. Our materials offer exceptional strength for the crucial base layer, coupled with an exceptional bond between the base layer and the underside of the paving slabs / setts. Eco-bed and pro-prime form the foundation of every project.

ECO-BED Fine Bedding Mortar

UltraScape Eco-Bed is a fine bedding mortar manufactured to meet and exceed the strict requirements of BS 7533. Eco-Bed can be laid from 10mm – 75mm in one pass

- Shrinkage compensated
- Small contractor friendly units
- Bulk silos available for larger projects
- Pre-blended - just add water
- Long-term durability

PRO-PRIME Slurry Primer

UltraScape Pro-Prime slurry primer is used to provide an exceptional bond between your paving element and UltraScape Eco-Bed fine bedding mortar

- User-friendly - requires only the addition of water on-site
- Quick and easy application
- Part of the UltraScape mortar paving system, which guarantees compatibility and reduces split liability

FLOWPOINT Rapid Set Flowable Grout

Flowpoint has been in use for over 20 years in a variety of project environments including public realm, landscaping and domestic

- Open to foot traffic in 1 hour
- Open to vehicular traffic in 4 hours
- Rapid setting
- Exceptional bond strength
- Shrinkage compensated
- Mixes quickly on-site with water
- Initial set after 15 minutes at 20°C

JOINTING

Flowpoint is our market leading rapid set grout, exceeding the requirements of BS 7533 Part 12. It provides exceptional bond strength and helps lock in the whole paving system. It is a flowable slurry grout that is shrinkage compensated and rapid setting, open to pedestrian traffic within 60 minutes.

Available in three alternatives; regular, eco and smooth, in two colours; natural and charcoal.

SPECIALIST MATERIALS

We provide an extensive range of brush in and gun injected jointing materials, epoxy bedding and concrete repair mortars, along with high bond strength vertical stone and brick slip adhesives.

RESI-BED

Epoxy Bedding and Concrete Repair Mortar

Ideal for bonding coping stones, arris repairs, bedding granite setts and paving elements in recess covers and tree grids

- **Workability:** 30 minutes
- **Set time:** 30 minutes
- **Open to traffic:** 6 hours
- **Depth:** 5-50mm
- 75N/mm² compressive strength in 7 days
- 22.4N/mm² flexural strength in 7 days
- 15.6M/mm² tensile strength in 7 days

CEMPOINT

Gun Injected Mortar

UltraScape cempoint provides a quick and clean method of jointing both horizontal and vertical faces (such as cladding and steps), installed using a hand-held mortar gun.

- Mixed easily on-site with water
- Conforms to BS 7533
- Excellent compatibility
- Resistance to freeze/thaw weather conditions
- Shrinkage compensated
- Fast and easy application

SLIPBOND

Vertical Stone and Brick Slip Adhesive

SlipBond is a flexible cladding adhesive for internal and external use, specially formulated with extended workability for fixing brick slips and natural stone to a range of substrates.

- Ideal for use in all weathers
- Applied to a thickness of 3mm – 20mm
- Frost resistant
- Suitable for: brick slips and natural stone
- Can be used with external wall installation systems
- Extended workability

M60 F

Rapid Strength, Fibre Reinforced, Bedding Mortar

Our market leading rapid strength mortar, for use with all access covers, as well as for the bonding of granite setts, flags and bedding kerbs

- **Workability:** 5 - 10 minutes
- **Set time:** 20 minutes
- **Depth:** 10mm - 75mm
- 24N/mm² compressive strength in 1 hour

PREMJJOINT

Premjoint is a high specification, decorative brush-in pave jointing solution, suitable for use with granite, porcelain and other premium quality natural stone. It can be used all year round for domestic paving and light non-trafficable commercial areas.

PREMJJOINT

Brush-in pave joint solution

- Ideal for jointing domestic paving using a brush-in method in all weather conditions.
- Natural Stone, Slate Grey & Jet Black colour options
- Fine & coarse grades available
- Enhanced workability
- Walk on: 24-48 hours
- Permeable
- Fast & Easy application
